TECHNICAL SKILLS

Handy in Python	Web App development
JAVA programming	Data Structures & Algorithms
Design flowchart, state diagram	PHP
JavaScript	Strong analytical & problem solving
Node Js	React Js
Mongodb	MySQL
Docker	Spring Boot
Html	CSS
Git	

PERSONAL SKILLS

Good communication and presentation skills	Ability to multitask
Ability to Work in a Team	Adaptability
"can do" attitude	interpersonal skills

LANGUAGES

ENGLISH	KANNADA
Highly proficient	Native speaker
HINDI	TELUGU
Highly proficient	Beginner

EDUCATION

Visvesvaraya Technological University
Bachelor's of Engineering, Computer Science &
Engineering

(March 10, 2019 - May 30,
2023)
7.7 CGPA

WORK EXPERIENCE

JAVA FULL-STACK DEVELOPER INTERN
KODNEST

(March 30, 2023 - Present)

- I am working as a Java Full Stack Developer Intern at Kodnest, where i have gained valuable experience on diverse projects.
- My role involves designing and developing robust web applications using Java, Node.js , React along with proficiency in front-end technologies like JavaScript, HTML, and CSS.
- I also excel in building efficient back-end systems using MongoDB, MySQL databases, and APIs to support application functionality.

PYTHON FULL-STACK DEVELOPER INTERN
PENTAGON SPACE

(August 05, 2022 - September 01, 2022)

- Responsibilities include working on diverse projects and contributing to web application development using Python and related technologies.
- Proficiency in both front-end (e.g., responsive interfaces with HTML, CSS) and back-end (e.g., databases, APIs) development.

EDUFABRICA TRAINING & INTERNSHIP
PROGRAM

(August 01, 2021 - September 28,
2021)

EDUFABRICA , Microsoft-Technology Associate

- I had accomplished "Drupal machine hacking" as a part of the Internship on "Ethical Hacking"

PROJECTS

A DEEP LEARNING APPROACH TO CLASSIFY DRONES
AND BIRDS

(January 01, 2023 - March 30,
2023)

Technologies used (MatLab | Deep Learning | CNN)

- Utilized deep learning, particularly Convolutional Neural Networks (CNNs), for real-time classification of drones and birds, addressing safety and security concerns.

BAKING RECIPE APP

Technologies used (Java | Xml)

- The app provides a collection of recipes developed using Java and XML, offering a user-friendly platform .

AXE AND THE WOODCUTTER
COMPUTER GRAPHIC'S

- A story based computer graphic's project, story of the woodcutter and the axe is been narrated.

MILITARY DATABASE MANAGEMENT SYSTEM

Technologies used (html | css | js | MySQL | Php)

- Designed and developed a mini-project to facilitate efficient data management for armed forces.
- Created a user-friendly website using HTML, CSS, and JavaScript for the front-end, while implementing PHP for server-side scripting and backend support.
